Overall Length:

34.250 inches

Overall Height:

3.475 inches

Overall Width:

18.900 inches

End Application:

Backup recovery equipment

Power Source:

External

Unit Design:

Desk top and rack mounted

Voltage In Volts And Current Type:

120.0 ac

Interface Type:

Scsi

Memory Size:

19660.8 gigabytes

Special Features:

2u form factor; removable 12-cartridge magazine auto loader for automated backup, recovery, and archive; hp drives 1; touch-screen front panel; barcode reader; interface-ultra 160 lvd scs (lto-2); ultra 320 lvd scsi(lto-3, lto-4); 3 gbs sas(lto-4)

Unpackaged Unit Weight:

50.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A506x0
