Overall Length:

4.680 inches

Overall Width:

1.050 inches

Special Features:

End item: network panel, power requirement 15 to 36v dc supply, output 0 to 35v dc.0.28ohms on resistance, input signal voltage 0 to 35v dc, input impedance 100k ohms typical, 12 active-low buffered inputs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A502f0
