Special Features:

Card storage module and reader, rs-232 output level 5v, rs-232 input level low 0.8 v max, high 2.0 v min

General Description:

Supply voltage 110 vac to 7.5 vdcadapter, interface type 25 pin d type, subminiature socket rs-232c dce interface

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
