Operating Temperature Range:

-10.0/+50.0 degrees celsius

End Application:

Tmip (4es51), theater medical information system

Inclosure Type:

Encased

Maximumlength:

5.300 inches

Maximumwidth:

3.200 inches

Maximumheight:

6.400 inches

Product Name:

4800i industrial 2d imager

Special Features:

Powered by adaptus imaging technology 5.0, 4.0-14vdc at imager, image: vga, 752x480 binary, tiff, or jpeg output

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
