Special Features:

The skyx gateway xr10 is well suited to networks with high latency, high bit error and asymmetric links. Designed as an edge/remote device, it performs best at bandwidth with a single, very large ftp-and supports an industry-best number of simultaneous sessions and connection turnover rate. Bandwidth: up to 10 mbps; connection rate: 100 conns/sec; maximum simultaneous connections: 2, 000

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:
