Operating Temperature Range:

+32.0/+131.0 degrees fahrenheit

Unit Design:

Desk top

Voltage In Volts And Current Type:

264.0 ac

Product Name:

(inavy)panel view plus terminal

Input Device Type:

Touch screen

Output Device Type:

Electroluminescent display

Special Features:

Panel view plus terminal with touch screen having 6.5 inch display from a 5.2 inch x 3.9 inch display area; color display with 640 x 480 resolution; ethernet, rs232 and usb communications; logic module with 64mb flash and 64mb ram memory

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A507b0
