Operating Temperature Range:

-20.0/+75.0 degrees celsius

Power Source:

External

Unit Design:

Portable

Data Storage Capacity:

60.00 gigabytes

Special Features:

Interface: sata 3gb/s; spin spee (rpm) : 5400; 8 mb cache; ata standard 2.5 inch form factor; applications: automotive navitainment systems, aircraft navigation and entertainment, marine, mobile/outdoor surveillance systems, ruggedized laptops, medical equipment, industrial control systems, and military/defense

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505e0
