Overall Length:

2.500 inches

Overall Height:

5.140 inches

Overall Width:

19.125 inches

Operating Temperature Range:

+32.0/+110.0 degrees fahrenheit

End Application:

Spacelift range systems

Display Type:

Liquid crystal

Unit Design:

Rack mounted

Voltage In Volts And Current Type:

12.0 dc

Product Name:

Dual 7in wide screen lcd monitor

Interface Type:

Bnc

Highest Display Capability:

Rgb

Diagonal Display Size In Inches:

7.0

Display Resolution:

800 horizontal and 480 vertical

Special Features:

16: 9/4: 3 switchable screen aspect; 6.14 h x 3.27 in v display viewing area; 130 h x 120 degrees v viewing angles; 380 cd/sq m brightness; ntsc/pal system; analog input; 2 inputs 2 outputs; red green and amber led tally signals; smpte color bar signal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A506z0
