**Case Material:**

Plastic

**Maximum Voltage Rating In Volts:**

60.0 ac

**End Application:**

Project t29 f16 flight simulator

**Inclosure Type:**

Encased

**Terminal Location:**

Bottom

**Power Source:**

External

**Mounting Method:**

Pedestal

**Terminal Type And Quantity:**

1 connector plug

**Maximumlength:**

85.0 millimeters

**Maximumwidth:**

439.2 millimeters

**Maximumheight:**

565.3 millimeters

**Sensing Element Type And Location:**

Thermistor internal

**Special Features:**

Length and width are monitor size only, height includes monitor support/stand

**Type/model Designation:**

2020I

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A31700
