Case Material:

Plastic

Maximum Voltage Rating In Volts:

60.0 ac

End Application:

Project t29 f16 flight simulator

Inclosure Type:

Encased

Terminal Location:

Bottom

Power Source:

External

Mounting Method:

Pedestal

Terminal Type And Quantity:

1 connector plug

Maximumlength:

85.0 millimeters

Maximumwidth:

439.2 millimeters

Maximumheight:

565.3 millimeters

Sensing Element Type And Location:

Thermistor internal

Special Features:

Length and width are monitor size only, height includes monitor support/stand

Type/model Designation:

2020I

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
