Alternating Current Voltage Rating In Volts:

90.0 and 264.0

Special Features:

Provides an interconnect between legacy pbx's and various ip endpoints; single density t1/e1 rack mount appliances; support for ip load balancing; compatible with a variety of pbx manufacturers; supports supplementary services on cas, qsig, euro isdn, n12, dms100, 5ess protocols; supports configuration via serial, telnet and web browser including context-sensitive help; ip security includes tls, srtp and https; supports any-any call routing

Frequency In Hertz:

47.0 and 63.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30800
