Overall Length:

2.760 inches

Overall Height:

0.370 inches

Overall Width:

2.760 inches

End Application:

Ais v3 system

Product Name:

Travelstar 5k500.B

Special Features:

Disk contains two heads; rotational speed is 5400 rpm; rotation time is 11.11 ms; average rotational latency is 5.56 ms; disk interface is serial-ata/150; buffer-host max. Rate is 150 mb/second; buffewr size is 8192 kb; drive ready time is 3.5 seconds; average seek time is 12 ms; track to track seek time is 1 ms; form factor is 2.5 inches;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505e0
