Storage Temperature Range:

-40.0 to 158.0 degrees fahrenheit

Power Source:

External

Special Features:

Memory 128mb sdram, pocket buffer size 2mb, 16mb flash; operating temperature 32 to 113 degree f; throughput up to 107.2 mpps; routing/switching capaci type 144gbps

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30800
