End Application:

Work station unix

Product Name:

Sparcompiler c/c++

Special Features:

6common interface to take advantage of features like: fix and continue--to boost debugging productivity by allowing fixing of a bug and continuing at the same point, without restarting the entire session; runtime error checking--to improve application quality by catching hard-to-find memory leaks and memory-access errors before the application is put in production; incremental linker--to reduce link time of applications, particularly useful when only small changes are made to very large application

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
