**Required Capacity Of The Working Memory:**

512 megabytes

**End Application:**

Windows server 2003 enterprise, english

**Product Name:**

Disk program, automatic data processing

**Operating System Type/name:**

Windows

**Special Features:**

Increased operational efficiency through virtualization; better access management across security boundaries; efficient information sharing and storage management

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A500p0
