Required Capacity Of The Working Memory:

512 megabytes

End Application:

Windows server , english

Product Name:

Disk program, automatic data processing

Operating System Type/name:

Windows

Special Features:

Increased operational efficiency through virtualization; better identity and access management accross security boundaries; efficient information sharing and storage management

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A500p0
