Overall Length:

2.500 inches

Overall Height:

0.687 inches

Overall Width:

2.000 inches

Component Type And Quantity:

2 transistor and 3 capacitor

Special Features:

Semiconductor device 1; terminal board 1; unthded holes irregularly spaced

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
