Alternating Current Voltage Rating In Volts:

120.0 and 240.0

Current Rating In Amps:

1.5 and 2.0

Power Source:

External

Phase:

Single

Special Features:

68 pin universal programmer; 1mb ram; two 3.5 in. Disk drives; two program modules, programs up to eight 4mb eproms up to 40 pins; provides support for logic, memory and microcontrollers in surface mount packages from 20 to 68 pins; 20 lbs; promlink software

Frequency In Hertz:

48.0 and 63.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A30800
