Product Name:

Hp 1x4 server console switch

Special Features:

Rear panel keyboard, video and mouse ports, combined with a front panel usb 2.0 hub; 4 server ports with kvm switch, maximum supported servers - 4; number of simultaneous users - one; mounts in a rack space; multiple os support

Functional Description:

Supports four target computers and one local user. Can be accessed from a single keyboard, mouse, and monitor console. Keyboard and mouse data is transferred to the computers using a usb connection, or via ps/2 connection. When using a usb connection, the three-port usb hub allows one computer at a time to access connected peripherals. The console switch is hot-pluggable which allows components to be removed or added without shutting down the unit.
