Min. Tensile Strength (psi):

4 pounds per square inch

Width:

0.250 inches

Length:

1800.000 feet

Overall Diameter:

7.000 inches

Center Hole Inside Diameter:

0.937 inches

Special Features:

This tape will be fully capable of providing reliable performance over the temperature range of m65 degrees c to p71 degrees c

Material:

Plastic, polyester film

Material:

Plastic, polyester film

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T297-c
