Overall Length:

6.800 inches

Overall Height:

4.500 inches

Overall Width:

5.750 inches

End Application:

B-52h oas pacer gym

Power Source:

External

Interface Type:

1553

Memory Size:

30.6 megabytes

Memory Expansion:

0.0 megabytes

Special Features:

Tape type-one half in. Kapton based 1 mil; tape length 250 ft. No. Of tracks 18; packing densi type 1275 bpi; recording format nrz-m parallel with redundancy and parity; data record size-no limit; irg size 1.5 in.; data transfer rate 3900 words per second; tape speed-normal 12.5 ips; high 25 ips; start time 100 miliseconds; stop time 120 miliseconds; tape drive-dc servo motor, twin capstans; weight 6.45 lbs.; mounting data: dagger pin interface with quick release fasteners which require no special installation/removal tools, matl will be in accordance with mil-e-5400

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A502e0
