**End Application:**

Countermeasures signal training set type an/mlq-t2

**Special Features:**

12 bits, straight binary input format, 0/+10v f s output range, 2 in. Lg, 2 in. W, 0.40 in. H

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A50810
