General Description:

Transfer gate pac, contains four independant gate structures, nand gates, dc to 2 mhz frequency operation, 1 unit load input each, 75ns circuit delay, current rqmts, 56ma at 5v, 68ma at 6v, power dissipation 280 mw at 5v, 405mw at 6v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
