General Description:

U15 in. Lg; 6 in. W; 10.750 in. H; voltage is selectable from 100, 120, 220, and 240 vac; frequency range is 50-60 hertz, single phase, grounded; power consumption is 35 watts; operating temperature range is 32 to 104 degreesfahrenheit

Fsc Application Data:

Other cryptologic equipment and components

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
