Special Features:

Designed to generate white gaussian noise; 14 pin dual-in-line package; hermetically sealed; 0.870 in. Lg; 0.500 in. W; 0.240 in. H; qualified peak factor 5 to 1 min; frequency range 100 hz to 5.0 mhz; load impedance 600 ohms; operating current 8 ma

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
