Average Life Measurement:

Not rated

End Application:

Sa-2578/g, analog matrix switch

Installation Design:

Module

Circuit Construction Type:

Any acceptable

Special Features:

Digital; manuf name: bcd module; capaci type 10 relay logic modules, 200 switchpoints; expander drive; fan out ttl ten; format-binary; 8.25 in l, 1.5 in w, 4.0 in h; power 5 vdc at 600 ma

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
