End Application:

Am-6903/spy-1a amp attenuator n/a for cosal use

Special Features:

Freq-500 to 600mhz; noise form: uniform density white gaussian noise constand with frequency; dimensions-3.375x1.000x1.000; solid state construction; 0-60 degrees c operating temp; meantime between failures-250, 000hrs; available prime power-25vdc; noise output adjustable via screwdriver

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
