Overall Length:

10.500 inches

Overall Height:

1.750 inches

Overall Width:

19.000 inches

Indicator Type:

Indicating light

Voltage In Volts And Current Type:

264.0 ac

Interface Type:

Scsi

Special Features:

I/o adat bridge; 24 bit resolution digital to analog converter; transfers audio between pro tools/adat optical compatible consoles; 16 channels; gold plated coax rca jack; 20 hz freq response; 18 green/yellow leds, 2 50-pin scsi computer port connectors; 85/264 vac; 47/63 hz autoswitching; 5 watt typical

Frequency In Hertz:

63.0

Precious Material And Location:

Connector surfaces gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A50810
