Overall Length:

9.300 inches

Overall Height:

1.700 inches

Overall Width:

17.300 inches

End Application:

An/sqq-8 (v) 14 operator trainer

Component Type And Quantity:

1 switch

Special Features:

24 ports autosensing, auto-configuration, mdi/mdix 10base-t/100base-tx; media interface: rj-45; ethernet switches features: full-rate nonblocking on all ethernet ports, full/half duplex auto-negotiation and flow control, 802.1p traffic prioritization; mac addresses supported: 4,000

Unpackaged Unit Weight:

7.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51110
