End Application:

Matrix switcher

Component Type And Quantity:

1 switch

Special Features:

Dmatrix switcher modular matrix switcher capable of routing i/o matrices of 8x8 to 128x128 and handling signals ranging in complexity from audio to composite to high-band width rgb, video out board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
