Overall Length:

9.062 inches

Overall Height:

2.359 inches

Overall Width:

3.266 inches

End Application:

Rockwell automation, controllogixmodules

Component Type And Quantity:

1 module and 16 relay and 1 wire and 40 pin and 2 connector

Special Features:

Voltage rating is 20 to 26 v dc, max. Peak voltage is 600 vp, current per module is 48a, wire strip length is 0.32 in., operating temp. Is 0 degc to 60 degc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
