Overall Length:

3.800 inches

Overall Height:

0.790 inches

Overall Width:

2.100 inches

End Application:

Misc parts,

Usage Design:

Guards asynchronous equipment from ground looping

Component Type And Quantity:

1 isolator

Special Features:

Transmission format is asynchronous, full or half duplex; interface standard is eia rs-232-e; 2 connectors which are db-25 female; data rates up to 19,200 bps; isolation 2500vrms; power supply is interface powered, optional power supplied to pin 9 (either side) at +5v dc +/-5% @ 10ma; compliance is 89/336/eec, fcc part 15, class a; temperature range is 0-50c (32-122f); altitude up to 10,000 feet; humidity 5-95% non-considering

Unpackaged Unit Weight:

0.356 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A5110
