Overall Length:

5.250 inches

End Application:

Nema encl

Mounting Configuration:

Internal

Component Type And Quantity:

1 module

Product Name:

Memory, 256mb pc133

Special Features:

Is a 32m x 72-bit (256 mb) pc133 cl3 (cas latency 3) registered sdram (synchronous dram) memory module. Uses 3.3 volts. 168 pin dimm uses gold contact fingers.

Precious Material And Location:

Contacts gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A5110
