Overall Length:

10.000 inches

Overall Height:

1.750 inches

Overall Width:

19.000 inches

End Application:

Ssgn class submarine

Component Type And Quantity:

1 switch

Special Features:

2x8 kvm matrix switch with 3 side holes; polytetrafluoroethylene power cord internally connected with a length of 27" connected to a male iec connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A5110
