End Application:

Portable command cont unit (ican); or control panel; or workstation, graphic; or human machine interface

Usage Design:

Adapter supports copper ethernet/fast ethernet connections and fiber ethernet

Component Type And Quantity:

1 adapter

Product Name:

At-2451ftx/st dual-port fiber/copper adapter

Special Features:

Dimensions are 18cm x 6.5cm; pxe support allows a computer to be remotely booted up via the network connection; load balancing and auto failover optimize network traffic to achieve best performance and improve network resilience; wake-on-lan (wol) support allows a computer to be remotely booted up via the network connection; pci 2.2 compliant with the latest pci-based computers; advanced power management (acpi) reduces power requirement of the host computer as the card draws less power when not actively in use; vlan support removes need for multiple card in servers

Unpackaged Unit Weight:

0.1 kilograms

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
