Overall Height:

233.4 millimeters

Overall Width:

160.0 millimeters

Unit Design:

Internal circuit card

Product Name:

High-performance 16-bit adc board

Special Features:

Thickness: 20.3mm, temperature: operating: 0 to + 65c, storage: -40 to +85c.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A50810
