Special Features:

Pump reducer nozzle (funnel) is designed for use with oil safe systems pump p/n 062567; high density polyethylene plastic; length 1.5 inches, outside diameter 0.6 inch, outlet size 0.25 inch, weight 0.1 ounce, not suitable for use with fuels or solvents

Material:

Plastic, polyethylene, high density

Material:

Plastic, polyethylene, high density

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T254-g
