Mounting Type:

Table

Current Type:

Ac

Frequency Rating:

60.0 hertz

Maximum Power Dissipation Rating:

1100.0 watts

Compartment Quantity:

1

Operating Control Type:

Dial and push button

Voltage Rating:

220.0 pounds per hour wet

Design Type:

One-piece

Temperature Indicating Device:

Included

Heating Method:

Electrically

Phase:

Single

Special Features:

For naval shipboard installation

Supplementary Features:

SPEC-IF-ICN-SNRE

Specification Or Standard:

1 class and 2000 size and 3 style and ii type

Departure From Cited Designator:

As modified by voltage and special features

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T281-e
