Current Type:

Dc

Voltage Rating:

24.0 volts

Product Name:

Heater, ration, individual

Special Features:

Equipped with power cord and bayonet type plug nsn 5935-00-019-7707; fabric encased and can be collapsed for storage; designed for use by tracked combat vehicle crews to heat meal, ready-to-eat, individual components and water without leaving their vehicles

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T281-a
