Mounting Type:

Leg

Overall Depth:

40.000 inches

Overall Height:

60.125 inches

Overall Width:

39.875 inches

Height:

20.000 inches

Current Type:

Ac

Frequency Rating:

60.0 hertz

Maximum Power Dissipation Rating:

25.0 kilowatts

Compartment Quantity:

2

Operating Control Type:

Thermostatic

Voltage Rating:

440.0 volts

Design Type:

Sectional

Temperature Indicating Device:

Included

Heating Method:

Electrically

Intermediate Rack Quantity:

5

Criticality Code Justification:

Amse

Depth:

27.375 inches

Phase:

Three

Special Features:

Naval shipboard use w/26x26 in. Hatchability

Width:

29.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T281-e
