Mounting Type:

Leg

Overall Depth:

36.000 inches

Overall Height:

65.500 inches

Overall Width:

39.000 inches

Frequency Rating:

60.0 hertz

Voltage Rating:

480.0 volts

Heating Method:

Electrically

Criticality Code Justification:

Bdwt

Phase:

Three

Special Features:

Stainless steel front; painted top, sides, and back; double section; vertical split doors, two per section w/observation window in ea door

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T281-e
