Current Type:

Ac

Maximum Power Dissipation Rating:

12.0 watts

Compartment Quantity:

2

Operating Control Type:

Thermostatic

Voltage Rating:

440.0 volts

Design Type:

Sectional

Tempurature Indicating Device:

Included

Heating Method:

Electrically

Phase:

Single

Special Features:

Stainless steel exterior; each oven supplied with one oven rack

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T281-e
