General Description:

The pmb sled consists of a stainless steel framework, thermostat temperature control, high temperature fire-box, retractable stock pot holders, internal fuel line with quick disconnect coupling, 10-foot, quick disconnect amphenol power cord and 12 foot external fuel line. The pmb sled, when combined with the babington airtronic burner; nsn 7310-01-442-8340, creates the powered multi-fuel burner. The pmb is a clean burning, 120 volt a/c powered, thermostatically controlled, multi-fuel burner ideally suited for the military field feeding environment. This tray ration heater accessory item expands the production capabilities of the tray ration heater to meet the availability of rations other than ugr h&s.
