General Description:

The pmb consists of the pmb sled assembly 7310-01-535-6986, one airtronic burner (installed); nsn 7310-01-442-8340, one 10-foot quick disconnect amphenol power cord, one 12 foot external fuel line, one fuel can adapter kit and one 5-gallon fuel can. The pmb is a clean burning, 120 volt a/c powered, thermostatically controlled, multi-fuel burner ideally suited for the military field feeding environment. This tray ration heater accessory item expands the production capabilities of the tray ration heater to meet the availability of rations other than ugr h&s.
