**Mounting Type:**

Leg

**Overall Depth:**

50.062 inches

**Overall Height:**

75.625 inches

**Overall Width:**

22.562 inches

**Current Type:**

Ac/dc

**Frequency Rating:**

60.0 hertz

**Maximum Power Dissipation Rating:**

6.0 kilowatts

**Operating Control Type:**

Dial

**Voltage Rating:**

Between 208.0 volts and 240.0 volts

**Temperature Indicating Device:**

Included

**Heating Method:**

Electrically

**Phase:**

Single

**Special Features:**

A controlled uniform heat source; cooks, roasts, reheats and holds in the same cabinet with set and forget controls; cooks by time and automatically converts from cook mode to hold mode; stackable design for additional capacity; antimicrobial handle retards the growth of illness causing pathogens

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T281-e
