Height:

37.000 inches

Current Type:

Ac

Frequency Rating:

60.0 hertz

Voltage Rating:

240.0 volts

Heating Method:

Electrically

Depth:

23.630 inches

Phase:

Three

Special Features:

Heavy guage stainless steel and tempered glass construction; digital timer with programming and function controls; 3 metal encased (sheathed) heating elements

Width:

33.500 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T281-e
