**Overall Height:**

62.000 inches

**Overall Width:**

23.620 inches

**Voltage In Volts And Current Type:**

115.0 ac

**Product Name:**

Convecton steamer

**Special Features:**

Two compartment, pressureless; 200m btu gas fired steam generator; 24 inch wide based design with nickelguard; cooking capacity for up to six 12in by 20in by 2 1/2in. Deep cafeteria pans; 60 minute mechanical timer; 14 gauge ss construction; seperate main power switch for on/off; 115 volts; 60 hz; single phase; all controls are serviceable from the front

**Material:**

Stainless steel

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
