Height:

13.188 inches

Current Type:

Ac

Frequency Rating:

60.0 hertz

Maximum Power Dissipation Rating:

2100.0 watts

Voltage Rating:

208.0 pounds per hour dry and 230.0 pounds per hour wet and 240.0 pounds per hour wet

Heating Method:

Electrically

Product Name:

Oven microwave grab and go 0.6 cu.Ft

Depth:

20.000 inches

Phase:

Single

Special Features:

60 programmable memory pads; grab and go door handle and top and bottom energy feed; ss; digital display

Width:

16.625 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T281-e
