**Overall Length:**

56.000 inches

**Overall Width:**

39.000 inches

**Voltage In Volts And Current Type:**

208.0 ac

**Product Name:**

Oven, conveyor, pizza

**Special Features:**

Digital controls w/ single on/off switch; temperature adjustable from 250 to 575 degrees f; stackable up to three oven cavities high; 28 in baking chamber; 18 in wide, 56 in long conveyor belt w/ product stop; adjustable conveyor speed from 1 to 30 min cooking time; front-loading access door w/ cool handle; direct conveyor drive powered by an ac motor; 208v 60 hz single phase

**Functional Description:**

Conveyor oven which uses air impingement technology to rapidly heat, bake, cook, or crisp foods

**Material:**

Stainless steel

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
