Current Rating:

16.700 amperes

Wattage Rating:

2000.000 watts

Voltage In Volts And Current Type:

120.0 ac

Product Name:

C51 series non-insulated heated holding and proofing cabinet

Special Features:

4 casters, 5 in donut neoprene wheel w/double ball bearingsswivel, two w/brake; santoprene gaskets; polycarbonate window; polymer latches; polymer drip trough; digital thermometer; recessed control dials; master on/off switch; power on light; water pan; ball bearing forced air system

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
